322. Property located at 920 20th Avenue Southeast Minneapolis MN 55414.

323. **P. OTHER DEFECTS/MATERIAL FACTS/ADDITIONAL COMMENTS:** Are there any other material facts that could
324. adversely and significantly affect an ordinary buyer's use or enjoyment of the Property or any intended use of the
325. Property? Yes No. If "Yes," explain: _____

326. _____
327. _____
328. _____
329. _____
330. _____
331. _____
332. _____

333. **Q. WATER INTRUSION AND MOLD GROWTH:** Studies have shown that various forms of water intrusion affect
334. many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture
335. leaving the home.

336. Examples of exterior moisture sources may be:
337. • improper flashing around windows and doors,
338. • improper grading,
339. • flooding,
340. • roof leaks.

341. Examples of interior moisture sources may be:
342. • plumbing leaks,
343. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
344. • overflow from tubs, sinks, or toilets,
345. • firewood stored indoors,
346. • humidifier use,
347. • inadequate venting of kitchen and bath humidity,
348. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
349. • line-drying laundry indoors,
350. • houseplants—watering them can generate large amounts of moisture.

351. In addition to the possible structural damage water intrusion may do to the Property, water intrusion may also result
352. in the growth of mold, mildew, and other fungi. Mold growth may also cause structural damage to the Property.
353. Therefore, it is very important to detect and remediate water intrusion problems.

354. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to
355. humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious
356. health problems, particularly in some immunocompromised individuals and people who have asthma or allergies
357. to mold.

358. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
359. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the
360. Property inspected for moisture problems before entering into a purchase agreement or as a condition of your
361. purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the
362. Property.

363. **R. NOTICE REGARDING PREDATORY OFFENDER INFORMATION:** Information regarding the predatory
364. offender registry and persons registered with the predatory offender registry under MN Statue 243.166
365. may be obtained by contacting the local law enforcement offices in the community where the property
366. is located or the Minnesota Department of Corrections at (651) 361-7200, or from the Department of
367. Corrections web site at <https://coms.doc.state.mn.us/publicregistrantsearch>.

414. believes has the expertise necessary to meet the industry standards of practice for the type of inspection
415. or investigation that has been conducted by the third party in order to prepare the written report.
